

Greetings!

As a supporter of Cyber-Seniors, we wanted to let you know about an exciting opportunity that we hope you will consider participating in.

The "**Cyber-Seniors: Connecting Generations**" campaign will be kicking-off a 30-day drive to raise awareness about the digital divide, highlight the benefits of connecting young people to older adults through technology training, and promote the many resources we have available for individuals and organizations to get involved.

Throughout the month of September, we will be supporting screening events of "**Cyber-Seniors**" documentary, along with tech labs for older adults. We hope you will join us and take advantage of this wonderful opportunity for you to play a lead role in connecting with community partners to make a positive impact in the lives of young and old.

Please fill out the registration form attached to this e-mail and send it back to us to join the campaign! We will work with you to ensure you receive recognition within your community and receive valuable media exposure for your efforts.

Also please forward this e-mail to any school administrators that would be interested. They can apply to have a **FREE Screening** (see details below).
